INDUCO MARKET CONNECTIONS

The Induco Market Connections catalogue brings together an exciting array of new speciality food products for the UK market. Our portfolio comprises exquisite foods from respected suppliers based in France, Italy, Portugal and Spain and now offers the discerning UK consumer a chance to enjoy the pleasures of Mediterranean cuisine in their own home.

“Share the passion”

We can't bring you the Mediterranean climate but we can share our passion for the freshest, finest ingredients from a region known for its love of good food. Let a little sunshine in with the happiness that comes from savouring delicious ingredients and lovingly prepared, flavoursome food.

Induco Market Connections complements your customers' lifestyles by offering an extensive product range that spans the food cycle from the growing stage, to raw ingredients, through to handmade delicacies made to a time-honoured recipe. Whether it's our grow-your-own herbs, freshly bottled organic olive oil, Italian artisan pasta or hand-crafted Portuguese chocolates, we are proud to showcase products that have a special place in the culinary experience and reflect the growing interest in the provenance of our food.

“Not just beautiful on the inside”

Our sumptuous range offers products selected not just for their uniqueness and superior quality but also for designs that are too beautiful to be hidden away in a storeroom cupboard. Several of our products have won international awards for their innovation, packaging and concept design.

Add value to your existing range by adding Induco's products that will whet your customers' appetites and have them returning for more, again and again.
